Subject: Re: Rockland

Hi, George: I think that worked out at Shawangunk...by the way Freed did contact Stew.. "my employee was accosted..." Stew listened to him and told him 'the state had the right...and we conferred with counsel's office ..."

Anyway, I received an e-mail from Coxsackie; they want to tell him he won't be allowed to take his machines

on May 30 unless his commissions are paid up. I would like to tell them, and all facilities he owes to do what

Shawangunk did. I do not think he is up to date with any facility. ok?

Thanks for all your help, George. nf.

Subject: Rockland

Nan: I am going to defer even further my letter to Rockland while we are satisfying what's owed out of the change boxes and while DEC is inspecting containers. One other item. If two or more facilities deal with Rockland and Rockland is current with some but in breach with others, the ones who are paid in full may still deduct what is owed to the other or others as was done this morning at Roxann's facility. Keeping good records is the key thing..Geor.
